the first book on christian apologetics written by a leading atheist figure that teaches christians the best and worst arguments for defending their faith against attack the christian faith has been vigorously defended with a variety of philosophical historical and theological arguments but many of the arguments used in an earlier age no longer resonate in today s educated west where apologetics gone wrong what is the best response to the growing challenge presented by scientific discovery and naturalistic thought unlike every work on christian apologetics that has come before how to defend the christian faith is the first one written by an atheist for christians as a former christian defender who is now a leading atheist thinker john loftus answers these questions and more he tells would be apologists how to train properly where to study what to study what issues they should concern themselves with and how poorly the professors who currently train them practice their craft in the process he shows readers why christian apologists have failed to reach the intelligent nonbeliever for those christian apologists who think this book will provide a secret formula to convert the nonbelieving masses be warned as an exposé of the present state of christian apologetics it can just as easily be used by atheists to refute apologetic arguments thus this book presents both an opportunity and a challenge to christians they must either change how apologetics is done or quit doing apologetics altogether

apologetic primer explains how reason supports christianity s claims from the classroom to mainstream media christians regularly find their fundamental beliefs discounted by opponents who consider faith to be incompatible with reason faith is viewed as subjective emotional and a crutch for those who find the real world too hard the late r c sproul however claims faith reveals just how rational christianity truly is this book surveys the history and fundamentals of apologetics to demonstrate how reason and scientific inquiry actually support christianity s claims thus equipping believers to defend the existence of god and the bible s authority the defense of the faith is not a luxury or an intellectual vanity it is a task appointed by god to give reason to your eternal hope as you bear witness before the world a logical and biblical defense sets forth the basic truth claims of christianity to show the rationality of the christian faith comprehensive deals with arguments from philosophy science reason logic and history ideal for new and seasoned believers alike helps christians know what they believe and why they believe it great resource for individual small group or classroom study

in early christian apologetics d h williams offers a first comprehensive presentation of christian apologetic literature from the second to the fifth century ce williams argues that most apologies were not directed at a pagan readership in most cases ancient apologetics had a double object to instruct the christian and persuade weak christians or non christians who were sympathetic to christian claims taken cumulatively he finds apologetic literature was integral to the formation of the christian identity in the roman world

every generation must contend for the faith in its own way jesus said i am the way and the truth and the life no one comes to the father except through me john 14 6 with the entire christian faith standing or falling on the validity of such an utterly exclusive and uncompromising claim doctrine that truly aligns with jesus will cause division when we represent our faith honestly it is simply inevitable at times we will be at odds with others friends relatives perhaps even other christians yet we are called to contend in obedience to and for the sake of the most divisive person in history and the challenge is to do it in the way jude describes as an act of mercy toward those who doubt and those who have been deceived regardless of whether they claim faith in christ

the revered christian author whose bestselling classics include the divine conspiracy and the spirit of the disciplines provides a new model for how we can present the christian faith to others when christians share their faith they often appeal to reason logic and the truth of doctrine but these tactics often are not effective a better approach to spread christ s word dallas willard suggests is to use the example of our own lives to demonstrate jesus s message we must be transformed people living out a life reflective of jesus himself a life of love humility and gentleness this beautiful model of life this allure of gentleness willard argues is the foundation for making the

publisher description is it still possible in an age of religious and cultural pluralism to engage in christian apologetics how can one urge

one's faith on others when such a gesture is typically regarded with suspicion if not outright resentment in humble apologetics John G. Stackhouse brings his wide experience as a historian, philosopher, journalist, and theologian to these important questions and offers surprising and reassuring answers. Stackhouse begins by acknowledging the real impediments to Christian testimony in North America today and to other faiths in modern societies around the world. He shows how pluralism, postmodernism, skepticism about our ability to know the truth, and a host of other factors create a cultural milieu resistant to the Christian message, and he shows how the arrogance or dogmatism of apologists themselves can alienate rather than attract potential converts. Indeed, Stackhouse argues that the crucial experience of conversion cannot be compelled; all the apologist can do is lead another to the point where an actual encounter with Jesus can take place. Our objective, Stackhouse writes, is to offer whatever assistance we can to our neighbors toward their full maturity toward full health in themselves and in their relationships, and especially toward God. In the last part of the book, he shows how an attitude of humility instead of merely trying to win religious arguments will help believers offer their neighbors the gift of Christ's love. Drawing on the author's personal experience and written with an engaging directness and humility, *Humble Apologetics* provides sound guidance on how to share Christian faith in a postmodern world.
