this volume aims to revitalize the exchange between sociological differentiation theory and the sociology of religion which previously held center stage among the sociological classics it brings together contributions from different disciplines as well as various forms of regional and historical expertise which are indispensable in forming a globally oriented sociological perspective today secularization is understood as a process of boundary demarcation that is as the enactment of semantic practical and institutional distinctions between religion and other spheres of activity and knowledge these distinctions may emerge from within the religious field itself or may be absorbed into the field having originally emerged elsewhere they may even be directly imposed upon religion by external forces the volume is therefore based on the premise that societal differentiation and secularity as a specific expression of it is a widespread structural feature that nonetheless takes on various forms depending on its historical and

cultural context in order to make this diversity visible the volume adopts a global comparative perspective and examines historical distinctions and differentiations in the west and beyond by examining different forms and modes of secularity in statu nascendi the volume contributes to developing a better understanding of the diversity of secularities even of those found in the present day in terms of their historicity and their specific path dependencies with this shift in perspective this special volume initiates a global and historical turn in the theory of differentiation as well as in the study of secularity

the concept of religious freedom is the favoured modern human rights concept with which the modern world hopes to tackle the phenomenon of religious pluralism as our modern existence in an electronically shrinking globe comes to be increasingly characterised by this phenomenon to begin with the concept of religious freedom as embodied in article 18 of the universal declaration of human rights seems self evident in nature it is the claim of this book however that although emblematic on the one hand the concept is also problematic on the other and the implications of the concept of religious freedom are far from self evident despite the ready acceptance the term receives as embodying a worthwhile goal this book therefore problematizes the concept along legal constitutional ethical and theological lines and especially from the perspective of religious studies so that religious freedom in the world could be enlarged in a way which promotes human flourishing

william j meyer engages in critical and illuminating conversation with major figures in contemporary philosophy and theology in order to explain why theology has been marginalized in modern culture and why modernity has had such difficulty integrating religion and public life wrestling with notable philosophers like macintyre and stout and theologians such as gustafson hauerwas porter milbank and reinhold niebuhr meyer argues that theology must embrace modernity s formal commitments to public and democratic discourse while simultaneously challenging its substantive postmetaphysical outlook drawing on the philosophical perspectives of whitehead and hartshorne and the theologies of ogden and gamwell he concludes that a process metaphysical theology offers the most promising path for theology to regain a vital public voice in the world of the twenty first century
